Spatial Data Warehouse Administrator

The GIS and Mapping Services Department is seeking qualified applicants for a Spatial Data Warehouse Administrator. The administrator position will be primarily responsible for maintaining and growing the INCOG Spatial Data Warehouse (ESRI SDE) focusing on the primary operational elements of enterprise GIS and GIS technical support.

The position requires knowledge, training, and experience with ESRI ArcGIS Platform. Familiarity with servers and network storage, ArcGIS Enterprise and Desktop applications are essential to the position. Applicants must also be proficient in Microsoft Windows, Excel, Word, and Outlook.

Minimum qualifications: Bachelor's Degree in Geography or Computer Science; GISP certification is a plus. Other certifications Microsoft Certified System Engineer, Microsoft Certified Database Administrator ensures knowledge of networking concepts and design/implementation of SQL Server databases. Experience with Enterprise GIS management, MS SQL Server Administration and Python development are required. Critical thinking and problem-solving abilities are highly recommended along with strong interpersonal skills to assist non-technical staff with complex technical issues. Annual salary range $63,000-$75,000. Comprehensive benefits package included.

Please submit a resume detailing employment history, experience, education, and contact information, along with a cover letter that explains why you are interested and qualified for this position to Personnel Director, INCOG, 2 West 2nd Street Suite 800, Tulsa OK 74103 or email to *incog@incog.org*.
