SHORT-TERM COORDINATION STRATEGIES COMMITMENT FORM

Federal regulations require that agencies improve human services transportation by coordinating with each other. The following short-term strategies are part of the Coordinated Public Transit – Human Services Transportation Plan for the Tulsa Transportation Management Area which was developed in compliance with new Federal Transit Administration regulations. All agencies applying for Section 5310 grant funds are expected to comply with the coordination efforts. Recipients of this funding will commit to these strategies and demonstrate compliance throughout the grant term.

- a. Provide information about current coordination activities in the grant applications for Section 5310 funds. These activities will be monitored in order to identify local best practices to be included as examples in the update to the Plan.
- b. Attend meetings throughout the year and an annual meeting at the end of the grant year with other human services public and private providers to facilitate communication and collaboration. These meetings will be incorporated as much as possible into groups that exist already to avoid duplication of effort. Participants in the meetings will be asked to work actively on elements of the Plan and report on their progress at an annual meeting. Notification about the meeting dates will be sent from the applicant distribution lists. Information will also be posted on the INCOG website at www.incog.org.
- c. Support the development of a resource containing information about public and private agencies that provide transportation services. Agencies will be asked to keep their information up to date in order to maintain current and accurate data for public dissemination.

If you have questions about these strategies at any time during your grant term, please contact INCOG transportation staff at (918) 584-7526 or by email incog@incog.org

I do hereby agree, on behalf of my organization, that we will actively participate in the above named strategies in compliance with the Coordinated Public Transit – Human Services Transportation Plan for the Tulsa Transportation Management Area. Our participation will continue throughout the term of the grant.
