

ENVIRONMENTAL PLANNER

INCOG is seeking a qualified person to be an Environmental Planner in the Office of Energy and Environmental Sustainability. This person will assist the department in all aspects of environmental sustainability including the development and implementation of water quality, air quality, alternative fuels and transportation, floodplain management, hazard mitigation, building efficiency, renewable energy, and other sustainability programs. Assist INCOG member jurisdictions with maintaining compliance with applicable laws and regulations, securing funding resources, and coordinating with those organizations and others to further the goals of sustainability in the Tulsa region.

Assist with the design and implementation of air and water quality studies, plans, and programs related to the EPA's 604(b) Water Quality Education program and Climate Pollution Reduction Grant program. Support the Green Country Stormwater Alliance, Tulsa Area Clean Cities, Tulsa Air Quality, and Ozone Alert programs with outreach and education, including assistance with maintaining websites and updating social media accounts.

The qualified candidate will have graduated from an accredited college or university with a bachelor's degree in environmental science or other relevant programs is required. A minimum of three years of experience in water quality, air quality, sustainability, municipal government, or environmental law and regulations is preferred. Must possess a valid driver's license and have functional experience with Microsoft Office Suite and preparing and sharing technical presentations.

Starting salary is from \$53,067 to \$66,334 depending on qualifications and experience. Please submit a resume detailing employment history, experience, education, and contact information, along with a cover letter that explains why you are interested and qualified for this position to Personnel Director, INCOG, 2 West 2nd Street, Suite 800, Tulsa, OK 74103 or email to incog@incog.org.
