David Tillotson – Glenpool	Tiyahna Garrett
	Zach Harjo
	Jared Hurst
	Clint Johnson
	David Weatherford

Call to Order

The Chair Mike Burdge called the meeting to order.

Introductions

Approval of Minutes of the Meeting dated March 10, 2026

A motion was made by Mr. Tillotson and seconded by Mr. Brierre that the minutes from March 10, 2026 meeting be approved. Motion carried unanimously.

Tulsa Regional Chamber Report

Ms. Garrett provided an update on ongoing legislative activity, noting that the state budget remains close watch. A significant focus continues to be on ad valorem tax policy and its potential impact on local government revenues. Recent discussion at the Legislative Briefing Breakfast centered on concerns, including the possibility of reduced local revenue and the resulting strain on already tight state and municipal budgets. The Chamber is closely monitoring HB 3176, which has passed the House and is awaiting consideration in Senate committee. The bill has garnered notable support including co-authorship by Speaker Pro Tem Anthony Moore.

The Chamber will host its final Legislative Briefing Breakfast on May 8, featuring discussion on federal air and space initiative, including the proposed “Golden Dome” missile defense concept. The event will include remarks from Jim Bridenstine, Chuck Hall, and Representative Archer. The panel will be moderated by Grayson Ardies, with expectations that updates on HB 3176 may be provided if the legislation remains active.

OML Report

Leslie Blair was absent. The Chair provided a legislative update for OML. Key legislation discussed included Senate bills related to fire and police pension contribution increases as well as SB 2060, which has drawn and is reportedly a priority for the Governor. Additional bills reviewed SB 1346, SB 1552, and HB 3131, reflecting continued legislative attention on infrastructure and homelessness. Discussion also highlighted concerns with HB 3985, which may expose municipalities to increased liability, as well as ongoing biosolids-related measures including HB 3403 and HB 3411. Broader conversations addressed property tax elimination efforts under SJR 91 and noted that several priority bills, including a sewer-related measure, are not advancing at this time. There was general discussion on homelessness, emphasizing the importance of community-and faith-based approaches alongside legislative efforts.

Discussion of 2026 issues and slate

Ms. Adkins provided a legislative update highlighting the unusually early advancement of the state budget to the governor. Funding priorities included \$33 million for REAP grants and an additional \$10 million for water projects through the Oklahoma Water Resources Board, reflecting continued support for infrastructure.

Upcoming legislative deadlines are April 23rd for bills to pass out of committee and May 7th for floor consideration, though adjournment may occur as early as May 1st.

Several bills were discussed: HB 1409 – Open Meetings – passed the Senate and continues to advance, HB 2095 – Open Records – required acknowledgment within 30 days but has stalled, HB 3082 – Public Safety – addresses restrictions on sex offenders serving as firefighters and is gaining traction, HJR 1087 – Ad Valorem Cap – Passed the Senate and will appear on the August ballot, SB 2060 – Build Act – A top gubernatorial priority, currently under negotiation amid municipal concerns regarding implementation and impact. Discussion ensued on SB 2060 – Improvement Districts.

Budget discussions indicated largely flat agency funding, avoiding anticipated cuts. Significant allocations include \$85 million for teacher pay raises and \$80 million for literacy initiatives. There was discussion about long-term sustainability, particularly regarding Medicaid expansion proposals. Potential ballot measures, HB 4440, and HJR 1067 could shift Medicaid expansion from constitutional protection to statute or trigger changes based on federal funding levels. These changes could significantly impact hospitals, especially in rural communities where healthcare systems are major employers.

Additional discussion ensued on Marijuana regulations, Emergency management funding, HB 3435 bond language, and Data centers.

Mr. Brierre mentioned a potential amendment for SB563 to be introduced to address county planning commission authority following the City of Tulsa’s withdrawal from the Tulsa Metropolitan Area Planning Commission. Proposed changes include shorter terms for planning commissioners and streamlined public notice requirements.

Rising municipal liability was discussed, highlighted by a \$126 million judgement against the City of Moore involving an off-duty police officer. Concerns were raised about increasing legal exposure, escalating insurance challenges, and broader implications for public safety policy and municipal finances.

Announcements - none

Adjournment – There being no further business the meeting was adjourned.
