Streets		No Charge
Some aerial photography will have additional research fees if they are not already scanned images. Those include the following years: 1974, 1975, 1979, 1980, 1981, 1983, 1987, 1990, 1993, 1995, & 1997 Research fees will depend on the number of scans required to complete the order - please call for more information on pricing		

Recommended sizes:

- 11x17 – anything smaller than a quarter section
- 24x24 – quarter section
- 36x36 – whole section

Note: When elevation contours are requested, it may be recommended to move up in map size for clarity if the contours shown are too close together. Prints can be exported to .pdf or .jpeg for the same price as a print/plot. Additional prints/plots of the same area are half of the original price.

Please allow a few days to get your map requests completed
